People often say that the lion is the symbol of strength. We say “strong as a lion”, or “lion-hearted”. Lions are members of the cat family. As a rule, a lion is about nine feet long and its weight is about 400 or 500 pounds. The lion’s voice is a roar or a growl. Unlike other cats, it can swim in deep water. Lions like to live in the open area and they don’t like to live in forests. They drink once a day, that’s why they always live near some water. Lions may live alone or in pairs, or in groups which are known as “prides”. Lions hunt at night and have a rest during the day.

II. Make pairs
